What's New?

The 2022-23 edition of GOVERN for IMPACT's Policy Governance® Proficiency (PGP) begins in October!

As of 2020-21, **fifty-five participants have successfully completed the program** with ten more set to join the growing roster of Policy Governance leaders who emerge from this program. **Why not join them?**

The program is limited to sixteen participants. While October may seem too far into the future to think about, there is no time like today if you are seriously thinking of registering. As an added incentive: **If you register before May 15th you will receive a 10% discount on the program fee.**

PGP is a comprehensive dive into the Policy Governance system of governance. It is delivered by experienced Instructors and encourages learning from other participants. Past participants will say that it requires a serious commitment; they will also tell you it is well worth the effort.

Here are a few of their comments:

- “Upped my expectations about boards and showed how governance can be improved”
- “The content is excellent, rich and thought provoking and the webinars are fantastic”
- “The instructors are exceptionally knowledgeable and willing to share their experience and expertise”
- “There are lots of networking opportunities during and after the program.”

A [detailed program description](#) and [enrollment form](#) is on the GOVERN website (insert link). If you’d like more details or have questions about PGP, get in touch with the PGP program director, Rose Mercier [pgpprogramdirector@governforimpact.org].
