

April 2025

Given the turbulent times we are living and governing in, the GOVERN for IMPACT Board of Directors has developed this Position Statement to clarify GOVERN's focus and values as we move forward.

## **Board Statement on Governing in Turbulent Times**

---

We are living in precarious and uncertain times. As the world's leading organization on governance excellence inspired by Policy Governance<sup>®</sup>, GOVERN for IMPACT is nonpartisan, but not values neutral. Together, the GOVERN for IMPACT Board of Directors cements its vision that Boards have the power and responsibility to serve their careholdership with integrity and accountability. The future of effective governance must focus on sustaining health, safe, just, and equitable futures for all people worldwide.

We envision a world in which boards operate responsibly, ethically, and with a clear commitment to valued results and the greater good. **ENVISION WITH US.**
